Thank you for buying your new Remington® product. Please read these instructions carefully and keep them safe. Remove all packaging before use.

IMPORTANT SAFEGUARDS

- This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been supervised/instructed and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be done by children unless they are older than 8 and supervised. Keep the appliance and cable out of reach of children under 8 years.
- Always check the appliance before you use it. Do not use the appliance if it is damaged, as this may cause injury.
- The adaptor contains a transformer. Do not cut off the adaptor to replace it with another plug, as this causes a hazardous situation.

Suitable for use in a bath or shower.

- **WARNING:** Detach the shaver from the charging adapter before cleaning it in water.
 - Do not use the product with a damaged cord. A replacement can be obtained via our International Service Centres.
 - When charging or powered, you must use an external supply unit with an output terminal of 5V & 7.5W (the measured maximum output power is less than 15W) and meets the requirements of IEC 60335-1 standard.
 - Always replace a damaged adaptor with one of the original type.
 - Do not use the appliance if it is damaged or malfunctions.
 - This appliance should never be left unattended when plugged into a power outlet, except when charging.
 - Keep the power plug and cord away from heated surfaces.
-

- Do not plug or unplug the appliance with wet hands.
- Do not twist or kink the cable, or wrap it round the appliance.
- This appliance is not intended for commercial or salon use.

PARTS

- | | |
|-------------------------------|-----------------------|
| 1. On/off switch | 8. Charging connector |
| 2. Head assembly | Not shown: |
| 3. Individual flexing heads | • USB Cable |
| 4. Hairpocket | • Head guard |
| 5. Pop-up trimmer | • Cleaning brush |
| 6. Battery indicator (red) | • Travel pouch |
| 7. Charging indicator (green) | |

CHARGING YOUR APPLIANCE

1. Ensure the product is switched off.
2. Connect the charging cable to the product and then to the mains.
3. Charge for 4 hours when using for the first time. This first charge is important to the shaver's battery life.

INDICATOR LIGHTS

Charge Level	Indicator
Charging	Green light will come on
Fully Charged	Green light will go off
Battery charge is low	Red light will come on

- Your head shaver cannot be used when it is charging.
- When empty, the battery should be charged for 4 hours for a full charge and will provide up to 50 minutes of shaving time.
- To preserve the life of the battery do not charge the battery after each use. Best practice is to use the shaver until the red battery indicator flashes and then recharge.

INSTRUCTIONS FOR USE

1. Hold the head shaver body in the palm of your hand. Press the on/off switch to turn the head shaver on.
 2. Press the cutting heads against your scalp. It is not necessary to press hard to shave.
-

Pressing hard does not cut closer and could increase irritation. The cutting head will flex to follow the contours of your head.

3. Move the shaver slowly around your head. You may use linear or circular strokes, whichever works best for your hair.
4. Use a hand held mirror to check the back of your head to confirm a complete and thorough shave. You may also use your other hand to feel for complete and consistent cutting.
5. We do not recommend that you use this product on facial hair.
6. When finished turn the shaver off.

TIPS

- Do not attempt to shave head hair that is longer than 4 days growth or 2.0 mm. Your head shaver is intended to maintain a shaved look and can be used daily or every two or three days.
- If your hair is longer than 2.0 mm you should trim it down with a hair clipper first before using your head shaver.
- Your head shaver can be used dry or it can be used with shaving cream or gel in the shower.

TRIMMING

The pop-up trimmer is located at the top of the shaver body. It can be used for trimming edges of beards, sideburns or ears.

1. To activate the trimmer, turn the shaver on then raise the trimmer by sliding the trimmer release button.
2. Use cutting strokes in the direction opposite to the direction that the trimmer folds away.
3. When finished fold the trimmer into its stored position.

CARE FOR YOUR SHAVER

Care for your product to ensure a long lasting performance. We recommend that you clean it after each use.

- When cleaning your shaver, make sure it is turned off and disconnected from the charging adaptor cord.

DEEP CLEAN

- After rinsing away hair and debris, reassemble the shaver and turn on. Submerge the
-

shave head in warm water (add a few drops of dish soap) and run for 15 seconds. Switch off, remove the shave head from the hair pocket and thoroughly rinse away dislodged build up.

TROUBLESHOOTING

- If your shaver is making a chugging noise, clean and re-lubricate the inside surface of the cutting heads. Please ensure to clean and lubricate the shaver after each use.

SAFETY MODE

- Your head shaver will turn itself off and enter safety mode if the demand on the battery is too high. This can be because of inadequate cleaning or excessive hair clippings in the hair pocket.
- If your shaver will not switch on after deep cleaning, please do the following:
- **Make sure your shaver is fully charged.**
 1. Remove the shave head as per instructions.
 2. Connect the shaver to USB and then to the mains until the green light appears.
 3. Once done, unplug the shaver, and switch on the unit with the shave head still unattached.
 4. Run the shaver for a short time and switch off.
 5. Re-attach the clean head to the shaver and continue to use the device as normal.

AFTER EACH USE

1. Open the shaver head (fig. A).
 2. Empty out any hair clippings. The head can be rinsed under a running tap (fig. B).
 3. Use a cleaning brush to remove any shaving debris.
- The shaver is washable and can be cleaned by rinsing under warm water.
 - When using shaving creams or gels with the shaver it is especially important to clean after each use to prevent the gel from drying and clogging the cutters.
 - When cleaning the external surfaces of the shaver, do not use strong detergents or other chemicals.
 - To dry, wipe the surface of the shaver with a dry cloth or towel.
 - The shaver head assembly is designed to be detachable from the shaver body. Simply pull it away from the body of the shaver (fig. C). To reattach, align it with the opening on the body and click it into position.

REPLACEMENT PARTS

We advise that you should replace the blades on your head shaver every 12 months to maintain optimal performance.

Your head shaver is compatible with spare part SPR-XR75.

Spares are available from various retailers or visit the contact us section on our website:

<https://eu.remington-europe.com/contact-us>.

BATTERY REMOVAL

We strongly recommend that a professional removes the rechargeable battery. Parts of the shaver case, and tools have sharp edges and may cause injury if not handled correctly.

- The rechargeable battery must be removed from the appliance before it is scrapped.
 - Disconnect the charging adapter before removing the battery.
1. Ensure the device is discharged of all power. To do this, switch it on and allow it to run until it stops.
 2. Pull off the shaver head assembly.
 3. Unscrew the screw on the top of the unit.
 4. Pry off the upper decorative panel.
 5. Pry off the two decorative side panels.
 6. Unscrew the 6 screws on the inner housing
 7. Pry off the inner housing to expose the printed circuit board.
 8. Take out the printed circuit board assembly.
 9. Disconnect the battery from the circuit board.
- The battery is to be disposed of safely.
 - Do not attempt to operate the shaver once you have opened it.

RECYCLING

To avoid environmental and health problems due to hazardous substances, appliances and rechargeable and non-rechargeable batteries marked with one of these symbols must not be disposed of with unsorted municipal waste. Always dispose of electrical and electronic products and, where applicable, rechargeable and non-rechargeable batteries, at an appropriate official recycling/ collection point.
